EXPERIENCE

Technical Specialist

National Tsing Hua University

November 2022 – Present, Hsinchu, Taiwan

- 1. Developed and designed the new version of the General Education Center's website, including migrating and backing up from the old site.
- 2. Enhanced visibility by implementing SEO best practice to successfully achieve over 300K exposures and 15K clicks monthly.
- 3. Managed internet infrastructure, maintaining 99% uptime while reducing page load times by 60% through performance optimizations.

Co-Founder, Chief Financial & Technology Officer

Huixing Ltd.

January 2022 – December 2023, Taipei, Taiwan

- 1. Founded an EdTech startup that leveraging AI to empower inclusive education and successfully secured NT\$550K in funding.
- 2. Oversaw financial operations including accounting, budgeting, regulatory compliance, and capital raising initiatives.
- 3. Developed a hybrid team structure, robust internal systems with Microsoft 365, and an AI-driven product prototype.

Co-Founder & Technical Lead

DaoDao Education

July 2020 – September 2022, Taipei, Taiwan

- 1. Founded a non-profit open-source platform facilitating self-guided learning through digital inclusivity, with 80+ volunteers contributing.
- 2. Architected a cost-effective cloud infrastructure integrating GitHub, Notion API, and Cloudflare for the web application.
- 3. Recognized with the prestigious Taiwan Education Innovation Top 100 Award for contributions to EdTech innovation.

E-Commerce Entrepreneur

Shopee

September 2018 – August 2020, Taipei, Taiwan

- 1. Founded and solely operated a high-growth online software licensing business on Shopee during high school years.
- 2. Generated over NT\$1.2M in revenue with 60% net margins within the first year through strategic pricing and lean operations.
- 3. Achieved 4,000+ orders, 1,300 5-star ratings (99%), and 20% repeat purchase rate through exceptional service and customer satisfaction.

PROJECTS

NTHU Data API

<https://github.com/NTHU-SA/NTHU-Data-API> • September 2023 – Present

- 1. Developed a RESTful API with 20+ endpoints providing efficient access to campus data using Python FastAPI.
- 2. Implemented Kubernetes architecture on GCP to ensure scalability and high availability of API services.
- 3. Established CI/CD pipelines leveraging GitHub, Cloudflare, and SonarCloud for automated deployments and code quality assurance.

NTHU Chatbot

<https://smartcampus.site.nthu.edu.tw/p/406-1512-240738,r9216.php> • September 2022 – Present

- 1. Designed and deployed an AI chatbot utilizing large language models to offer personalized campus information services.
- 2. Analyzed 5,000+ user interaction data to continuously enhance chatbot capabilities based on community needs.
- 3. Secured NT\$150K implementation grant from the university's R&D department for this smart campus project.
